Students entering Ontario universities today have access to a growing variety of world-class electronic information resources that are accessible to them 24x7x365. Our libraries are leaders in transforming traditional library services by adopting innovative technological solutions such as ScholarsPortal, a shared gateway to scholarly resources and RACER, a province-wide interlibrary loan service. Through these resources and services, our libraries are preparing students for today's world of information. Our libraries also provide a wide array of unique resources, services, and facilities. For more detailed information, click here: <http://spotdocs.scholarsportal.info/display/sp/home>.

The table describes the holdings of the J.N. Desmarais Library, Laurentian University's main library. The University of Sudbury and Huntington University also have libraries, but they are not members of the Ontario Council of University Libraries (OCUL).

Students registered to programs offered jointly with colleges, such as Georgian College and St-Lawrence College, also have access to the libraries at these institutions.

Employment Rate: defined as the number of employed persons expressed as a *percentage* of the labour force where the labour force is those persons who were employed, or unemployed but looking for work. To determine employment rates of recent graduates, Ontario Universities conducted a survey of all 2006 graduates of undergraduate degree programs. Graduates were asked questions regarding their employment situation six months and two years after graduation.

K2a2 – KPI, Degree Completion Rate for Undergraduate Cohort, New Year 1 students	
Total new full-time, year one undergraduate students enrolled in fall 1999	1,233
Total students reported above who graduated by 2006	797

Graduation Rates: The Ministry of Training Colleges and Universities has calculated graduation rates using a single entering cohort of students and determining whether or not they graduated within seven years. The methodology employed involves the selection of all new full-time, year one undergraduate students on the official Fall 1999 enrolment file, who have a valid (and unique) student ID number, and were seeking either a bachelor's or first professional degree. The subset was then matched against the records for students who received a degree (in any program) from the same institution during the most current seven-year period (2000 to 2006).

* Engineering students interested in specialties other than metallurgy and mining engineering (e.g., civil, mechanical, chemical engineering) had to transfer after two years to another university. Laurentian did not offer all four years of the program for several engineering specialties. Because of this arrangement and the methodology used by the Ministry, graduation rates for Laurentian's engineering programs are abnormally low.

Retention Rate

Retention Rates, 2007 Cohort of Undergraduate Students

Year 1 to Year 2 Retention Rate (%):	84.2%

Retention Rate: the percentage of first-time, full-time, first-year students in a given fall term who returned to the institution in the next fall term.

Calculation of the rate includes data for the federated universities (Thorneloe, Huntington, University of Sudbury, and Laurentian University) and the collaboration with Georgian College, but excludes Algoma, Hearst, the Northern Ontario School of Medicine, and collaborations with Sault, Northern, Cambrian, and St-Lawrence College.
