

## **MSc student positions**

Master student positions available in the coming September for studying the role of cystathionine gamma-lyase/H<sub>2</sub>S in cellular functions and cardiovascular diseases. The candidates with a strong academic background of molecular biology and biochemistry would be a definite asset. Applicants can email your interest and CV to Dr. Guangdong Yang, Department of Chemistry and Biochemistry, Laurentian University at [gyang2@laurentian.ca](mailto:gyang2@laurentian.ca).
