

Mission, Vision and Values

Slogan

« *La communication, c'est tout dire. / Communication says it all.* »

Mission

The mission of the health sciences program in Orthophonie at Laurentian University is to:

- train future health professionals through its commitment to education that is bilingual, tricultural and interdisciplinary;
- assign particular emphasis to bilingualism in minority settings via theoretical and clinical research activities;
- optimize students' communication potential by encouraging the development of critical thought.

Vision

In a learning environment defined by Laurentian University's bilingual and tricultural mandate, the health sciences program in Orthophonie aims to:

- achieve national and global recognition for its research on the Francophonie in minority settings and First nations, Metis, Inuit peoples;
- educate professionals able to serve Francophone, Anglophone, First nations, Metis and Inuit populations;
- develop interpersonal skills as well as oral and written communication skills in French and English in an inclusive tricultural setting.

Values

Diversity

Respect students' cultures, languages and learning styles.

Integrity

Adopt an attitude that demonstrates ethics, professionalism, intellectual honesty and straightforwardness.

Thoroughness

Provide teaching founded on a solid theoretical basis, guided by recognized best practices and core competencies of the speech-language pathology profession.

Excellence

Foster knowledge development among students and research teams in the spirit of national and global collaboration.

Promote interprofessional education and interdependence of clinical and research work to acquire evidence-based scientific and practical knowledge.
